

Free **ONE-DAY** Healthcare and Benefits Calculator Training on Work and Disability

TRAINING GOAL

Training participants receive advanced knowledge and planning techniques on how youth and adults with a disability can access and retain needed benefits after paid work begins.

CREDITS AVAILABLE

5.5 Continuing Rehabilitation Certificate (CRC) Credits

LEARN FROM CASE STUDIES USING DB101 BENEFITS PLANNING CALCULATORS how paid work affects health care and benefits such as SSI. We train using Benefits Calculators available on www.db101.org in a hands-on lab environment for those who are experienced in benefit programs.

We will review public and private health and income support programs, including Medi-Cal's California Working Disabled Program and In-Home Supportive Services, and how these programs work with employment and vocational services. The training offers updates on new rules including the 2008 relaunch of the New Social Security Ticket to Work Program.

- ▶ Riverside County residents with disabilities will share their employment story with training participants (time permitting).
- ▶ Bring Your Organization's Brochures and Outreach Materials for the Training Resource Table.
