OCTOBER 6, 2008

HEALTH CARE AND BENEFITS FREE ONE DAY TRAINING ON WORK AND DISABILITY TRAINING GOALS

Training participants receive knowledge and planning techniques on how youth and adults with a disability can access and retain needed benefits after paid work begins.

Learn from case studies USING DB101 BENEFITS PLANNING

CALCULATORS how paid work affects health care and benefits such as SSI. We train using Benefits Calculators available now on www.db101.org.

We will review public and private health and income support programs, including Medi-Cal's California Working Disabled Program and In-Home Supportive Services, and how these programs work with employment and vocational services. The training offers updates on new rules including the 2008 re-launch of the New Social Security *Ticket to Work Program*.

Local Residents with a disability will share their employment story with training participants as available. Bring Your Service Organization's Brochures and Outreach Materials for the Training Resource Tables.

DATE Monday October 6th 9am – 4pm Doors Open 8:30am
